

# MobiCom 2018

The 24<sup>th</sup> Annual International Conference on  
Mobile Computing and Networking

New Delhi, India

Oct 29 – Nov 2

## Mobile App Competition @ MobiCom 2018

MobiCom 2018 is pleased to organize the 6th Mobile App Competition in conjunction with the main conference. The competition is for novel and innovative mobile applications utilizing any computing architecture (stand-alone, client/server, client/proxy/server, peer-to-peer/ad-hoc, cloud/mobile, others). Applications can be developed for, but not limited to, Android, iOS, Windows Phone, Blackberry OS 10 and HTML5.

To participate in the competition, you are required to submit a one-page proposal, a video demo, and your fully-functional app binary for evaluation. A selected set of finalists will advance to enter the last phase, presenting at the MobiCom 2018 conference to a panel of esteemed academic and industry researchers.

The top three apps will be promoted on the MobiCom website and will receive a prize during the conference. More details about the requirements and evaluation criteria are available at <https://www.sigmobile.org/mobicom/2018/app.php>.

### About MobiCom

ACM MobiCom 2018, the Annual International Conference on Mobile Computing and Networking, is a highly selective, premier international forum addressing networks, systems, algorithms, and applications that support mobile computers and wireless networks. MobiCom has historically been well attended by high-profile academic and industry researchers from all over the world.
